JOHN P. KEATS, M.D.

OBSTETRICS AND GENEKOLOGY

Dr. Keats received his Doctorate of Medicine from Brown University and completed his residency in Obstetrics/Gynecology at UCLA. He is Certified by the American Boards of Obstetrics/Gynecology and is Certified in Medical Management. He has been a provider with BMG for 20 years and served as the Group's Medical Director for 10 years. Prior to joining BMG he served with United States Air Force. His areas of special interest include high risk obstetrics and gynecologic surgery.

Dr. Keats has been married for 26 years and has 4 children. In his leisure time, he enjoys reading and crossword puzzles. He also has served as a Cub Scout leader and AYSO soccer referee.

Dr. Keats chose to pursue a career in medicine as it provided the opportunity to combine his interest in science with his desire to help people. Some of his heroes in the Medical field include his professors at UCLA, Dr. Jerry Moore, Dr. Bill Dignam and Dr. Leo Lagasse.

He remains excited about the practice of medicine because he enjoys meeting new people each day, learning new methods and techniques and continually learning from his patients. In his practice he feels that his role is to help patients understand their bodies in both health and disease, and assist them in making wise choices regarding their healthcare.
